INTRODUCTION

Congratulations on taking the first step In your journey to a better you, through a healthy and confident smile.

We are so excited to welcome you to a world where you no longer have to struggle with broken and missing teeth, or deal with uncomfortable removable dentures.

Dental Implants give us the ability to restore your smile back to a place of function and comfort, so you can focus on the things that matter, like sharing a meal with friends, and smiling with confidence.

Here at Restore, we know how great dental implants are, but we also understand they are a big investment. Our goal with this free E-Book Is to give you the knowledge needed to navigate choosing, not only the right dental Implant treatment, but also the right dental implant provider. Here, you will find answers and guidance on the most Important aspects of dental Implant treatment.

THE SMILE OF YOUR DREAMS STARTS HERE.

THE “ALL ON 4”

The “All on 4”, as It Is commonly referred to as, is the concept of replacing a full row of teeth with 4 (or more) dental Implants. We can replace all the teeth In an arch with a non-removable dental Implant bridge.

This advanced dental treatment uses dental Implants, strategically placed, to support a full set of customized, natural-looking replacement teeth. Unlike traditional dentures or snap-in denture options, these replacement teeth are not removable by the patient. Meaning, you don't ever have to go to bed with your teeth on your bedside table!

The procedure is designed to restore both function and aesthetics, providing a secure and durable solution for those seeking to regain their smile and confidence.

One Important thing to consider Is the placement of your Implants: where and how your implants are placed can greatly Impact your long term success of the treatment. Make sure to seek out a highly trained Implant provider, that has extensive experience with advanced techniques, In order to achieve the best results. With proper technique, follow up, and care, this procedure can last you long Into the future, and hopefully forever!

IS THIS THE RIGHT TREATMENT FOR ME?

There are many reasons why someone might consider dental Implant treatment. A few of the most common concerns that might lead you to dental Implants are listed below

BROKEN OR MISSING TEETH

If you have multiple broken or missing teeth, a full arch dental replacement option may be right for you. When we can, we love to keep natural healthy teeth but In certain situations, cost, time, and longevity might prohibit us from restoring our natural teeth. If you feel like you are In an endless cycle of root canals, crowns, and cavities, dental Implants might be the right option for you.

LOOSE TEETH OR BONE LOSS (PERIODONTAL DISEASE)

Sometimes, despite your best efforts, we cannot keep periodontal disease at bay. This leads to significant bone loss around your teeth, leading to loose teeth and serious health consequences, Included Increased risk for heart disease, stroke, and more. It Is Imperative we treat the source and get Infected teeth out before you lose too much bone and are no longer a candidate for dental Implants.

POOR FITTING DENTURES

Many of our patients come to us after being frustrated with poor fitting, uncomfortable dentures. If you have dentures and are looking for a better solution, you might be an excellent canidiate for dental Implants.

COST BREAKDOWN

If you have done prior research on the cost of dental Implants, you are probably coming to us feeling overwhelmed, confused, and usually left with more questions than answers.

While it is impossible to give an exact figure, without seeing you, we value transparency and want to give our patients an Idea of what to expect. We also want to explain what to consider when comparing costs.

The national average for the All on 4 treatment for one row of teeth is around \$25,000 ALL INCLUSIVE

However, It's not uncommon for prices to be **frequently being advertised Starting at around \$10,000**, so whats the deal with that? At Restore, we value bringing this amazing procedure to as many patient's as we can, but not so low that it means compromising quality. **We offer treatment well below the national average**, in an effort to make getting the treatment you need as obtainable as possible.

COST BREAKDOWN :

WHY SUCH A BIG RANGE?

BAIT AND SWITCH

Many times clinics will advertise pricing well below what you will actually pay, when all is said and done. What is the cost once you factor in all the extras?

EXPERIENCE OF THE DOCTOR

Experience level matters when it comes to medical outcomes. many providers, eager to get their foot In the door of Implant dentistry, will offer bargain prices to get experience under their belt. make sure you know your doctor is trained to provide the highest quality of care and has the experience to know how to troubleshoot any problems that may arise.

QUALITY OF MATERIAL

There are many different materials that go Into this treatment, ranging from the Implants themselves, temporary healing teeth, to your final set of teeth. Using the highest quality, longest lasting, time tested materials come with Increased cost.

CUSTOMIZATION AND TIME SPENT WITH DOCTOR

Many cheaper Implant centers focus on getting patients In and out, as fast as possible. Their focus Is on volume, Instead of proper care and patient relations.

COST BREAKDOWN:

We offer a variety of patient financing options to get our patients the care they need and deserve. We are able to break the entire cost of treatment into monthly payments, based on credit approval.

Monthly payments for the All on 4 treatment at Restore typically start at **\$200-300/month.**

COMMON CONCERNS: AM I TOO OLD FOR THIS INVESTMENT?

We get this concern a lot and the great news is, as long as you are in generally good health, you are never too old for dental implants. Many of our patients come to us in their golden years and are able to live life to the fullest, no matter how long that may be.

**WE BELIEVE THE QUALITY OF THE YEARS LEFT
MATTER MORE THAN JUST THE QUANTITY.**

If you want to enjoy meals with friends, eat the foods you love, and spend your life making memories, instead of dental appointments, dental implants are for you.

COMMON CONCERNS: I DON'T WANT PEOPLE TO KNOW MY TEETH ARE IMPLANTS

Some people want to shout from the rooftops about their new implants but no one has to know unless you want them to know! One of the greatest benefits of the all on 4 is they are not removed by the patient. This means no sleeping with your teeth on your bedside table! It also means no dentures accidentally slipping out of your mouth during a meal or a conversation!

Your new teeth are fully customized and we can make them hollywood perfect or we can make Charmingly imperfect. Whatever you choose! We make your smile to your specifications.

**WE DON'T BELIEVE IN
"ONE SIZE FITS ALL" TEETH.**

COMMON CONCERNS:

I HAVE ALWAYS HAD DENTAL PROBLEMS, WILL THIS WORK FOR ME?

Many of our patients come to us after years of spinning their wheels - Trying, but failing, to get ahead of dental decay, bone loss, and more.

If you feel like you have exhausted all options, and are left feeling **drained with dentistry**, full arch implants might be the solution you need.

Full arch All on 4 implants allow us a clean slate and a completely different approach to restoring your mouth back to function. Some people are just more prone to dental decay, and lucky for us, implants cannot decay. You still need to maintain proper oral care but dental implants **break the cycle** of cavity after cavity and gets you the predictable, lasting result you are after.

MEET YOUR DOCTOR

DR. ALYSSA MENCINI DMD

FOUNDER & CEO
RESTORE DENTURE AND IMPLANT CENTER

Dr. Mencini started Restore after seeing a need for a dental Implant center ran by a practicing dentist, not a big corporate chain. She believes In putting the **patient above profits** and that QUALITY of work, matters more than quantity of patients we can see in a day. After seeing the drawbacks of someone other than the dentist calling the shots on patient care, she knew she could provide dental implants different. Here at Restore, we can provide the highest quality dental implants, personalized attention, and continuity of care that sets us apart from impersonal corporate implant centers.

As we touched on earlier, experience of your dental implant provider does matter. It actually matters more than most people consider. Dr. Mencini completes hundreds of All on 4 procedures each year at Restore and has been extensively trained by world renowned leaders In implant dentistry. She is able provide advanced techniques, such as palatal approach, trans-sinus, and pterygoid implants, that allow us to successfully complete procedures that many providers turn away. Dr. Mencini previously served as the Director of Doctor Training at an implant center, where she found a love for helping other dentists learn life changing implant procedures.

FREQUENTLY ASKED QUESTIONS

WHAT IF I HAVE BONE LOSS?

Dr. Mencini is extensively trained in advanced techniques to successfully place implants in areas of limited bone. Many of our patients come to us, feeling defeated, after being told they are not a candidate for dental implants.

CAN I GET MY FINAL TEETH RIGHT AWAY?

With the All on 4 procedure, you typically will have your non-removable temporary teeth same day or next day. You may have come across clinics offering finals within 24 hours. Here at Restore, we value taking our time to make sure your body can heal and make sure your teeth are done right, not just fast. Allowing your body time to heal results in the best possible outcome for your implants, your gum tissue, esthetics, and overall comfort.

We want this to last as long as possible, let's not rush it!

WILL I BE IN PAIN?

At Restore, we offer a wide range of sedation options to keep you comfortable during your procedure. After your procedure, you will always have access to your doctor with any post-op concerns so we can resolve them as quickly as possible, even after hours! Most patients are back to normal day-to-day activities, with minor restrictions, within 1-3 days after their procedure.

WILL INSURANCE COVER THIS?

Most dental Implant treatment options are not covered by dental Insurance. However, we can work with your Insurance to see If you may be eligible for partial coverage. Even with partial coverage, Insurance contribution tends to be minimal. We offer health care specific financing to make getting the care you need affordable.

HOW DO I KNOW IF I AM A CANDIDATE?

We offer a complimentary consultation to visit us at our office and meet with Dr. Mencini. At this visit, we will take x-rays free of charge, to assess your candidacy for dental Implants. We use state of the art 3d Imaging to view bone quality and plan your Implant surgery.

MY CREDIT ISN'T GREAT BUT I REALLY WANT TO GET THIS DONE. CAN YOU WORK WITH ME?

Yes, we have solutions for all types of financial situations. Many of our lenders also offer the ability for co-signers, or someone besides the patient to carry the loan. We will work with you to come up with a plan to get you the care you need.

WHAT IF MY TREATMENT DOES NOT GO AS PLANNED?

Setting you up for long term success is important to us. That is why we offer a warranty on your implants, gum tissue, and your final teeth. If anything goes wrong, we want to help make it right.

THE COST IS TOO HIGH FOR ME RIGHT NOW, DO YOU HAVE OTHER OPTIONS?

Yes! We have a variety of treatment options that will get you moving towards your ultimate goal of a functional, healthy smile. We can even work with you to phase treatment, to make it even more affordable. These options are customized and can be discussed at your consultation. Don't let price discourage you from coming in and exploring your options. We can work with you to make this happen!
